As mediator between researchers requesting data and those submitting it, the GHGA Data Portal facilitates streamlined discovery of and access to human omics data.

GHGA DATA PORTAL

Data Download

Explore & Browse

Visit the GHGA Data Portal to discover omics datasets of interest. Use the keyword search or the filters on the left to browse through the available data. https://data.ghga.de

Request Access

Submit your data access request directly via the GHGA Data Portal.

Clicking the 'Request Access' button, you will contact the responsible Data Access Committee (DAC), appointed by the data controllers. The DAC will review and decide on your request, ensuring compliance with consent, GDPR, and research ethics.

Download

Secure access is facilitated through an integrated data access management system with two-factor authentication via Life Science Login.

Once access is granted and data transfer agreements are signed, encrypted downloads are available through the GHGA Connector tool, ensuring secure data transfer.

Need Help?

Specially trained Data Stewards are available to assist with managing access requests and facilitating secure access. ghga-helpdesk@dkfz-heidelberg.de
